Social Determinants of Health	Racial Equity in Maternal Health & Mortality
Racial Equity in Infant Health & Mortality	Equitable Health Care

Overall Impact Level: **Medium Impact**

- Advocated for the creation of universal child development accounts.
- Supported reproductive justice in committee and on the floor.
- Supported a bill that would have made the application for Medicaid much shorter.

Recommendations for Improvement:

1. Use your platform to help others understand Racial Justice.
2. Speak with and listen to Community Health Workers and Home Visitors and act on what they say is important.
3. Work with State offices to disaggregate all data by race.

What is this?

This is a tool to increase transparency and accountability between elected officials in St. Louis and the communities of they represent.

What can I do with this?

Read through this report and then take action. Contact your elected official and thank them for the positive work they have done. Hold them accountable for the policies they advocate for and demand they create change.

Why does this matter?

Black mothers and babies in St. Louis are dying at double the rate of white mothers and babies. We need to do more.

Our Mission

Generate Health mobilizes and inspires the St. Louis region to advance racial equity in pregnancy outcomes, family well-being, and community health.
